SELF FEEDER FOR PIGS CAUSED ORGANIZATION OF KENNEBEC WOMEN

Strange things do happen. Back in 1928, Mrs. A. E. Richardson of Benton, Kennebec County, saw pigs eating a self-feeder and the thought struck her—why not self-feeders for humans. On the same day seven men met at the Benton Grange and organized the women's group of the Farm Bureau while the men were busy holding a demonstration on how to build a self-feeder for pigs. The women, however, commenced to build self-feeders as one of their jobs. So it seems that self-feeders for pigs helped to usher in the women's group.

Reminiscing about the early days, Richardson said: "At first it was slow in developing and was a question if there would be enough members to continue—but I said I'm going to see if they will be a Farm Bureau with only one member, and if they will that member will be me! Well, we got twenty members for the second year, and for that our membership increased daily."

Because there were fewer groups in the county then than there are now, they were able to have the home demonstration agent for every meeting. The first meetings were half-day affairs. Some of these were on canning, dress forms or bottles, less cookers, canning, bread making, salads, and millinery. We met at the women's homes—once while at the hall. At the canning meeting all the women brought something to can and canned it under the supervision of the home demonstration agent.

At the first all-day meetings we had picnics. I remember one in a neighboring community where I attended with a Benton woman in order to help make fireless stoves. We did not have a picnic then. We had been working all the time. At about a quarter to five my friend said to me, "I don't see any signs of dinner, do you? And so hungry!" I said, "No, and I'm just starved, too." But we kept on talking, noticing that every once in a while a lady would leave. But we posed that she had gone home for her. Finally, about half past five, one of the ladies said, "I think had better stop for dinner." My friend and I agreed, but wondered where the dinner was coming from! So we went to a neighbor's house where we found all preparations made and ate a delicious dinner."

Mrs. Richardson was chairwoman of the Benton Farm Bureau from 1919 to 1923. She has been a solicitor in membership campaign for six years, and served on the executive committee four years. In the past year Mr. and Mrs. Richardson have been in 4-H Club work. Mr. Richardson has been a solicitor in membership campaign every year since the Farm Bureau was organized in Benton.

HAVE SILO ERECTED AT BUCKFIELD

Building a silo in a pouring rain is considered the best job available, during the rain of last Friday, the city agent and dairy specialist met that. Seven men, all told, were in the demonstration which was at the farm of Chester DeCoster, near Buckfield and West Sumner. Silo, built ten feet in diameter, twenty feet high will hold twenty tons of silage when settled and have about nine tons of hay in the winter. Total expense on silo was \$59.11. Full directions setting out materials are furnished the county agent.

GROVER WILL

What wonderful weather! No frost yet. Burton Abbott and his brother, Edward Haines of East Bethel, working in the potato fields in the morning during the harvesting season. Alfred J. Ponsie called on friends ahead a short time ago. Alfred and Arthur Whitman and Edmund Muntz are attending Gould farm, after a nice long vacation. Mrs. A. A. Wright and children of Norway called at the home of her mother, Mrs. E. B. Whitman, one evening recently.

MAINE POULTRYMEN TO HAVE BROADCAST THIS FALL-WINTER

Maine poultrymen will be on the air daily this fall and winter telling of their experiences and methods in the poultry business, says H. L. Richardson, Extension poultry specialist, who is arranging the series in cooperation with Maine broadcasting stations. The first series, starting the week beginning October 3, will have speakers from Androscoggin and Sagadahoc Counties. On the successive weeks speakers will appear from the following counties: Cumberland, Hancock, Kennebec, Knox-Lincoln, Oxford, Waldo, Washington, and York. County extension agents in the various counties are responsible for filling the dates for speakers in their counties. These talks, Mr. Richardson adds, will be supplemented with talks by various members of the Extension Service and other authorities. The exact hour of broadcasts will be announced later by Mr. Richardson.

FARM BUREAU NEWS

It pays to season wood, for when properly seasoned for 12 months, it has a 100 per cent fuel value, while green wood has only 63 per cent.

Present low wages and stumpage values make wood a lower cost material for the same amount of fuel value.

Over 1500 solicitors will take part in the Farm Bureau membership campaign during September and October. Solicitors give their time to make it easy for Farm Bureau members to renew their membership. Make their work as easy as possible by having your fee ready when the solicitor calls.

Norway has the largest Farm Bureau membership in the county with a total of sixty-two members. Waterford, last year, voted out South Paris for second place with 54 members, while South Paris has third largest with 46.

Hiram, Andover, and Brownfield are coming up strong with 38, 34 and 33 members, respectively. Waterford will make Norway "go some" for first place in the coming membership campaign.

Oxford and Sumner had 100% renewals of the members last year.

William Bonney of Winthrop visited his niece, Mrs. Gladys Bailey, recently. Several from this vicinity attended the Oxford County Fair. William Bailey spent the week-end with his aunt, Mrs. Ella Bradford, at North Paris.

Mrs. Laura Seames visited with her aunt, Mrs. Leslie Whitman at Norway recently. Mary Martin spent Saturday night and Sunday with her parents, Mr. and Mrs. Ross Martin.

Mrs. Cecile Roberts visited her mother, Mrs. E. A. Farr at West Poland, recently. Mrs. Ross Martin and sons, Louis and Dwight, and Junior Martin were at Mason Sunday. Visitors at Ross Martin's Sunday were Mr. and Mrs. Frank Waterhouse of West Paris and Mr. and Mrs. Edw. Farr and family of West Poland.

MILTON

The schools have started again. Llewellyn Duck is carrying the scholars to East Milton. Clara Jackson is driving back and forth to her school at Rumford for the present. Mrs. Ada Billings has returned to her brother, Addison Bryant's, from her work at South Gray. Walter Millett is working on the Pettigall Farm across the river. Mrs. Mattie George and daughter, Bertha Packard, visited at their home here a day or two last week bringing with them friends from Kennebecport. Alf Coffin and family visited at Walter Millett's over the week-end. Miss Theresa Clifford has been visiting her grandmother, Mrs. Frances Lapham. Mr. Fields of Auburn has been visiting his old schoolmate, Annie Beck, at Rumford.

PULLORUM TESTS TO BEGIN ON SEPT. 20TH

Applications for testing 72,514 Maine hens as compared with 61,104 on the same date last year indicates little evidence of depression among Maine poultrymen, according to Professor E. R. Hitchner, head of the Department of Bacteriology, where the tests for Pullorum Disease are being made. Actual tests on blood samples will start about September 20. Professor Hitchner further states that early application for testing will allow them to give the best service in view of the increased demands. The cost of the test is 8 cents per bird and applications are being received daily at the Department of Bacteriology.

EIGHT COUNTIES HAVE SEPTIC TANK FORMS TO LOAN OR RENT

To make septic tanks easy to construct and thereby give safe sewage disposal, six Maine counties now have collapsible forms available which can be either rented or loaned by the County Farm Bureau. C. N. Turner, agricultural engineer for the Extension Service, has announced. Counties having the collapsible forms are—Knox-Lincoln, Cumberland, Kennebec, Aroostook, York, Androscoggin, and Sagadahoc.

The cost to the user, Mr. Turner states, is the transportation of the form plus a small rental. He gives the following directions for its use. "The form will arrive in four pieces, two ends and two sides. They are assembled by placing three four-inch bolts through each corner making a rectangular bottomless box. The surfaces next to the concrete must be thoroughly painted or oiled to permit easy removal and prevent swelling. Two by four inch pieces, three feet long, extending from each corner with horizontal cross pieces six feet long suspend the form in a hole in the ground. Blocking under these cross arms affords easy leveling and the form is readily placed at the correct depth. The soil on the outside of the hole is used for the outside form. After the form is placed, the concrete is poured between the form and the soil. The concrete is allowed to stand for at least three days and the bolts are then taken from all four corners by tying and lifting the two end pieces first the whole form is easily removed. Oil should again be applied and the forms stored in a dry place ready for the next installation."

Mr. and Mrs. Bartlett of Hiram's called on Mr. and Mrs. Harrington Sunday. James Harrington and his schoolmate, Mr. Shaw of Portland, spent the week-end with his father. W. C. Cross is repairing the road after the heavy rain Friday night. Miss Lilla Corner is home from Kewar Lake where she has been all summer. Dick Lawrence spent the week-end in this vicinity. Mr. and Mrs. James Crockett of Bethel called on his brother Sunday. Mrs. Hersey called on her daughter on Howe Hill recently. Walter Farnham of Massachusetts was a caller on Howe Hill Monday. Mrs. Lillian Lapham called on her parents recently.

Fernald's Mill, Albany referred. Mr. and Mrs. Arthur Bean from Norway called on Mrs. Corrie Logan on their way to Bethel one day last week. Sunday callers at Corrie Logan's were Mr. and Mrs. Albert Kimball and family, Mrs. Carlton Saunders and three sons, Raymond, Kenneth, and O'Neil, all of West Bethel. Mrs. Fina McAllister and son Charles were callers at Preston Flint's recently. Rosemary Emery is spending a few days with his daughter, Mrs. Corrie Logan. Mr. Abbott from North Norway started work on the State road in this vicinity Monday. Clayton Penley finished picking corn at North Fryeburg and is working on the State road. Mr. and Mrs. Elmer Cordwell from Norway were recent callers at Flora McAllister's. Ralph Hattat from East Bethel has been helping Clarence McAllister cut cord wood.

WORDS OF WISDOM

Moses makes a man laugh. No precepts will profit a fool. Only blockheads copy one another. It is as well to work as think on his troubles.

After suitably and wisely directed is of great service.

Beauty is the last true thrill left us in a mechanized age.

Bad manners are an eccentricity which a genius has them.

There is nothing to do with detestable weather but to stand it.

Every man's idea of liberty differs somewhat from that of others.

Some people are so afraid to die that they never begin to live.

Finally, after all, is not a fixed and definite end, but only a means to an end.

Better not collect souvenirs. Some day you will have a cleanup and throw them all away.

It would seem that the desire for divorce is the only important factor. The reason does not matter.

A fool often falls because he thinks what is difficult is easy and a wise man because he thinks what is easy is difficult.

Crimes are committed by no person on society; but society seems to be at ways helping evils of crime on the heads of the criminal element.

GOOD ADVICE, THIS, TO YOUNG FARMER

The spirit of the "Good Farmer" Almanac" brought up to date in the Connecticut (New York) by Robert B. Latham called.

Read your almanac in a room. Make friends with your almanac.

Do your share in a good way. Put a man's hand to work.

Have your farm face the sun. Have your house with no windows on the south side.

Take a bath in the early morning. Cut weeds down and make a pile.

Shut an hour in the sun. Take your cows when milking.

By all that's good, be much alone. Too much company is bad for you.

Play as much as you can. Now before the children start.

Never hope to rise in life. Let all you have today, it is your wife.

Never let your corn to grow. Let it grow to a good size.

Let your horse to work in a field. Let your horse to work in a field.

Let your horse to work in a field. Let your horse to work in a field.

Let your horse to work in a field. Let your horse to work in a field.

Let your horse to work in a field. Let your horse to work in a field.

Let your horse to work in a field. Let your horse to work in a field.

GREENWOOD CITY

Clyde Morgan and Charles Martin have finished work in the corn shop at South Paris. L. B. Emmons was at home from his work in Poland for the week end. Lenora Cole is visiting her sister, Mrs. Roland Hayes. Ellen Paapa has finished work for Mrs. John Ring and returned to her home at West Paris.

NEWRY

Walter and Rexford Powers were in Norway last Monday on business. Mr. and Mrs. Carl Hakala called at F. I. French's Monday. H. R. Powers and family were in Rumford Falls last Saturday. Mr. and Mrs. W. H. Bond have closed their summer home here and returned to Long Island, N. Y. Mr. and Mrs. F. I. French were in Paris last Sunday and Mrs. A. R. Tuell came back with them. Miss Cobb and Miss Cameron went to Portland Friday returning Sunday night.

Albany—Waterford

Francis and Robert Mills of Bryant Pond came Saturday to spend two weeks with their aunt, Marion Luce. Eight teachers of Waterford enjoyed a picnic supper and steak roast Thursday on the sand beach near Waterford Flat. They attended the pictures at Bridgton in the evening. George Brownell and Mabel Stanley were in Gorham, N. H., recently. Harold Canwell and Forest Churchhill helped Ernest Brown the past week cutting ensilage corn. Mr. and Mrs. Ray Sanborn of Stoughton, Mass., are spending two weeks in their camp at the Five Knobs.

W. Leam Seidner of Lovell was in this place Monday.

Orin Eames and friend of Portland spent the week end with his mother, Rose Eames.

Fred McKeen and family spent Sunday afternoon at Ernest Brown's.

Mrs. E. K. Shedd was visited Sunday by her four sisters, Mrs. Marr, Mrs. Jones, Mrs. Edwards, and Mrs. Chadbourne, all of North Bridgton.

THIRTY YEARS AGO

ITEMS FROM THE BETHEL NEWS OF SEPTEMBER 21, 1902.

Work on the improvement of the Common has begun, and any and all who are willing to assist by giving a day's work or more are invited to do so.

Mr. Calvin Bisbee is erecting a two-story building 28x42 feet in size, fronting on High Street on the lot purchased by Mr. Bisbee of J. B. Chapman. The new building will be occupied by Herick Bros., who are now operating a machine shop at West Bethel.

The abutment of the "toll" bridge which was injured by a log jam last summer, is being repaired under the direction of S. B. Twitchell.

Repairs are still going on at the Cole Block. Workmen have torn away the platform in front of the block and are putting in a cement one.

THURSDAY SEPTEMBER 22, 1932.

WEST BETHEL

Mr. and Mrs. Byron Abbott and little daughter, Carolyn, were the guests of Mr. and Mrs. Carroll Abbott Sunday.

Clayton Kendall and Carlton Saunders have finished work in the corn shop at Fryburg and returned home. Mrs. Clara Abbott was home from Saco Sunday.

Mr. and Mrs. Joseph Maddocks were in Berlin Monday.

Thomas Westleigh lost one of his horses last week while at work for Marshall Hastings in Gratton. The horse broke his leg so that it was necessary to kill him.

The friends of Warren Brown are glad to know he is soon to be home from the C. M. G. Hospital, Lewiston.

Roland Kneeland was home from Saco over the week end.

Warren Bran and Roger Wheeler were in Berlin the first of the week.

Mrs. Carlton Saunders is assisting Mrs. Clarence Bennett in her house work.

Mrs. Fred Ingalls of Gorham, N. H. was the guest of Mrs. Estella Goodridge one day last week.

The friends of Mrs. Betsey Mills will be added to know that she is quite ill at the home of her daughter, Mrs. Alice Rolfe.

Mr. and Mrs. Gerald Cushing from Hebron were week end guests of D. W. Cushing and wife.

Bert Webster has gone to Blackstone, Mass. for a few days.

Elmo Saunders and George Brown have returned from Fryburg.

Mrs. Fred Lovejoy was in Berlin last Monday.

Mr. and Mrs. Walter S. Robinson of Brooklyn, N. Y. were Sunday guests of Mr. and Mrs. Edmund Smith.

Mr. and Mrs. Sterling Van de Water of Pompton Lakes, N. J. were over night guests at Birchmont Farm on Tuesday.

William Crossen left for New York Sunday after spending a two week vacation at Birchmont Farm.

Mr. and Mrs. Charles Lott of Unionville, N. Y. called on their cousin, Edmund Smith, and family, Wednesday and Thursday.

Rev. C. L. Gough and Miss Gough of Newark, N. J. were dinner guests at E. C. Smith's Thursday.

Mr. and Mrs. Maynard Davis visited his brother, Wilbur Davis and family, Saturday.

Rev. Pryor Grant of New York City and friend of Quebec called at Edmund Smith's Friday.

Mrs. Ruby Davis is conveying the scholars from West Bethel Flat to the West Bethel school.

Galapagos' Formation

Nearly everywhere on the Galapagos, one walks over fresh or weathered lava. It was natural that Darwin took for granted that the islands had been built up from the sea bottom by their volcanoes within comparatively recent times. Wallace and other followers of Darwin accepted this view that the islands "have been formed by successive eruptions and have never been joined to continental America. According to this doctrine, the islands and plants reached them by various fortuitous means; by the wind, which could bring fern spores, seeds, insects, birds, and bats, or seeds may be carried adhering to the plumage or the feet of birds, or even in their claws. Such stragglers are apparently still reaching the islands, and stand a chance of becoming resident if they find suitable conditions, mates, and so on.—From "The South Seas" by Clifford Pinchot.

Night Life

He is the only night life in your town?

See—Oh, yes. Every once in a while a member of our lodge dies and we sit up with the corpse.

Personal Proof

Adam—Most of the girls that come here don't want to marry.

Eve—How do you know?

Adam—I've asked 'em.

The Question Answered

Miss Miller—Did you ever say "Naples"?

Mrs. Newcomb—Naples? No, but Oh, that's where Edward and I had our first quarrel.

SCIENCE WILL SEEK COCOS ISLAND GOLD

New Metal Detector to Be Tried by Expedition.

Washington.—The elusive caches of pirate gold on Cocos Island that have defied maps and diggings of fortune hunters for more than a century, now must dodge the delicate instruments of science. An expedition now on the island is reported planning its hopes on a newly developed metal detector.

"Cocos Island, which is 10 square miles of lofty, forest-covered mountains and furrowed valleys, owes its fame to the activities of pirates along the coasts of Central and South America from the Seventeenth to the early part of the last century," says a bulletin from the National Geographic society.

"After Capt. Edward Davis looted Leon, Nicaragua, in 1695, he sailed for Cocos, buried his treasure and rested until his next plundering expedition.

In the early eighties, Benito, a former Portuguese naval officer who was a scourge to shipping in the Caribbean, felt that his old landlark was becoming too well protected for his profession, rounded the Horn, preyed upon towns and shipping along the Pacific coast and sought refuge on Cocos. He also buried treasure on the island before he and his crew were captured.

Lost of Lima Magnet.

"Tales of other pirates have been reported buried on Cocos, but the first magnet of modern expeditions to the island. Gold and silver and precious stones worth millions that were accumulated by the Spaniards from the natives and from richly plundered Lima treasures, were hoarded in Lima when a revolution broke.

"The Lima loot was filled with gold and silver and the Lima cathedral was a vault of wealth. The cathedral treasures were sold, stashed with priceless gems. Golden altars equipped with a diamond in the dim light of the candle, diamond-studded vestments beamed with a new radiance with every movement of the priests who wore them. These were treasures of gold adorned with rows of diamonds, rubies, emeralds and sapphires.

"During seizure of these treasures by the revolutionists, Lima city fathers sought a ship as a hiding place. The Mary Dear was riding at anchor in the harbor of Callao. Under cover of darkness the treasures were transferred to the Mary Dear's hold and a guard stationed aboard. Probably unknown to the Spaniards, the Mary Dear was commandeered by one of Benito's pirates. The pilot of gold and the shimmer of jewels crazed the captain. The guards were massacred and thrown overboard, and the Mary Dear made for the open sea. The crew of the ship was arrested later but not until the cargo of riches had been buried, presumably on Cocos.

Sought by Many.

"In the last century more than a score of expeditions have visited Cocos. One was led by the famous British naval officer Captain Cook. Another was led by the widow of a friend of the Mary Dear's captain, who in that was led by two women philanthropists. A British naval officer anchored at Cocos and ordered his crew to find the treasure, but all he gained was a severe reprimand from the British admiralty when he reached England.

Geonuts from which the island gets its name and bananas grow wild. Wild pigs wander through the forests, and birds nest in its trees. Fish abound in surrounding waters, coffee, sugar and vegetables can be grown in its fertile spots, fresh water is plentiful and its naturally tropical atmosphere is tempered by sea breezes and frequent rains. Yet Cocos has never been successfully colonized. However, the arid Galapagos Islands, its neighbors 350 miles to the southwest, are permanently inhabited.

"For a short time Costa Rica maintained a penal colony on Cocos Island and besides pirates, it was visited from time to time by whalers. One treasure hunter remained on Cocos for several years in an unsuccessful attempt to colonize it."

3 Brothers Are Priests, Guard Eastern Parish

Ellis, Pa.—Three brothers, priests of the Roman Catholic church, administer to the spiritual welfare of the congregation of St. Patrick's church here.

Rev. Mr. Peter Canley, rector of the parish since 1923, is head of the church.

He is assisted by his brothers, Rev. Stephen H. Canley and Rev. Charles L. Canley.

A fourth brother, Rev. Joseph Canley, was also attached to the parish. He died in 1910.

St. Patrick's was established in 1837 and now has a membership of 1,700 communicants.

Pays Doctor's Bill 50 Years After Operation

Marion, Ill.—Fifty years ago Dr. John Tidwell performed a medical service for a woman. Recently, 50 years after his death, the woman, now residing in Los Angeles, sent his daughter here a check for \$50 to cover the bill.

Short Arm Saves Cash

Chicago.—To cause their leader's car was too short to reach \$2,500, bandits in the office of a bakery got away with only \$390.

How Quickly Can You Stop?

Motor Vehicle Administrators of the United States, the men who know, will describe a series of traffic violations and driving errors responsible for a majority of automobile accidents and advise how they may be avoided. This is the first of the series.

By GEORGE R. WELLINGTON
(Commissioner of Motor Vehicles of Rhode Island)

(President of the Eastern Conference of Motor Vehicle Commissioners)

HOW QUICKLY CAN YOU STOP? Knowledge of the average stopping distances given above is a most important automobile safety factor.

Study the chart above. If you cannot stop within these prescribed distances which are given as a minimum, you are constantly exposed to the danger of accident.

In the 34,000 deaths and nearly a million injuries caused by the automobile reported to the National Bureau of Census and Survey Investigators last year, inability to stop was certainly a dominating factor.

"Thinking distance" is the number of feet your car will travel before you can put your foot on your brake. It is the distance covered from the moment your brain flashes "stop" until your muscles and nerves coordinate, and you put your foot on the brake.

The factor, little considered, is so important that it governs nearly a third of the distance required to halt a moving automobile.

Incidentally, if you will study the rapidity of movement at the varying rates of speed in terms of feet traveled per second, you will doubtless realize the necessity for keeping your driving speed down, to rates within which you may have a chance to stop without accident.

Be certain of how quickly you can stop, and avoid accidents from this hazard.

With the Unwanted Things

"You say your voice has volume?"

"Yes, volume. I can throw it out."

"Well, throw it in the alley."

Following Orders

Judge—Did you steal this rug?"

Indee—No. A lady gave it to me and told me to beat it.

Knows His Girls

Harry—Will you marry me?"

Rose—No, but I shall always respect your good in it.

Practico Makes Perfect

Maria—What do you think, darling?"

Bob—You don't like me, do you?"

Julia—Doesn't he do it beautifully?"

Rankin High in Favor

Teacher—Name a very popular general.

Pupil—General holiday.

You Figure It Out

Colleges should teach their students to "think without thinking," leaves Dr. Edgar Odell Lovett, president of the Rice Institute at Houston, Texas.

He explains "I'm thinking without thinking. I mean, that powers of perceiving, remembering and reasoning should be so trained to the will that those powers come promptly into play with the efficiency and precision of a smooth-running machine."

His Poetry Popular

A sixteen-year-old shoemaker-poet has recovered his job at Frothingham, Italy, with liberty to write verse on the inside of women's footwear. The boy had been discharged when his employers learned that women's shoes were going to the market with bits of sentimental poetry inscribed on the inner leather. Customers convinced the employers that the poetry was making the footwear more popular.

Too Big for Comfort

When Franklin D. Roosevelt, the German giantess, was in London some years ago she never dared go out for a walk, because at once a crowd collected to stare up at her. She was very nearly eight feet high. She could not get into a taxi and could only travel in a specially made motor car. Life, she explained, was "one continuous bending."

All Clear as Daylight

Lady—How could you find the penny I gave you so quickly?"

Beggar—I am not the blind man. I am just sitting here while he has gone to the cinema.—Lustige Kolner Zeitungen.

Arduous Sport

"The only objection I have to golf," said Miss Carynne, "is that it sometimes becomes a 'life' wearisome."

"But you don't play the game."

"No. But I have a friend who talks about it continuously."

It Depends

"What do you mean, you sometimes drive alone, at least technically?"

"Well, whenever my wife is asleep in the back seat."

BIRTH RATE FALLS TO LOWEST POINT

But Fewer Babies Die During First Year.

Washington.—The birth rate in the United States dropped during 1931 to the lowest point it has reached since the establishment of birth registration in this country nearly 17 years ago, according to statistics made public by the bureau of the census.

At the same time, the bureau reported, the infant mortality rate showed a continued decline in the year, dropping to its lowest level since such statistics have been systematically compiled. During the year the infant death rate was 61.7 for every 1,000 live births, as compared with a rate of 64.7 in 1930.

The birth rate for the country in 1931 was 17.8 for every 1,000 of population, according to the bureau's report. In 1930 the rate was 18.0. The 1931 birth rate in Illinois was 15.4, compared with 16.7 in 1930.

The total number of children born in this country during last year was 2,084,443, as compared with 2,101,012 in the preceding year.

Of the more than 2,000,000 born in 1931, 126,645 died in their first years of life, while in 1930 the number reached 141,070.

The registration area on which the bureau's report was based includes all except two states and comprises 94.7 per cent of the total population of the country.

In the rural part of this registration area the birth rate and infant mortality rates were higher than in the urban section, the report showed, while the still birth rate was lower.

The rural section had a population of 59,238,000, while the urban section had a population of 57,530,000.

In the city area the birth rate was 17.5 per 1,000 of population; the infant mortality rate was 60.8 per 1,000 births, and the still birth rate was 4 for every 100 live births.

In the rural area the birth rate was 18.2; the infant mortality rate 62.9; and the still birth rate 3.7.

Picture of Gorgulov

Recognized by Mother

Moscow.—An eighty-two-year-old woman in a village of the Kuban region (in Ciscaucasia, bordering on the Black sea) was shown a Paris news paper clipping picturing a disheveled, wild-eyed, blood-stained man denounced in screaming headlines as an assassin.

"It is he! My Pashka!" she cried.

It was the first picture Mrs. Yavraya Gorgulov had seen in a decade of her son, Paul, assassin of the French President, Paul Doumer.

A Moscow reporter obtained from the woman a statement attesting that the man in the picture is her son.

The assassin's aunt also signed an identification. The document received prominent display in Pravda, official organ of the Communist party, along with alleged interviews with villagers who recalled Gorgulov as a bitter enemy of Bolshevism.

British Museum Receives

Ancient Elephant Teeth

London.—The natural history museum has been presented with three teeth of an ancient elephant, each weighing between three and four pounds, unearthed in a gravel pit near Gravesend, Kent. Ancient elephants roamed the Thames valley long before the mammoth and were the ancestors of the straight tusk elephants of Africa and India.

Lord Loses Hat Where

Ancestor Lost His Head

Bolton, England.—"I lost my hat on the spot where my ancestor lost his head," was the humorous comment of Lord Derby, attending the Bolton Conservative association bazaar here. He revealed he had mislaid his hat some where in the town hall, within 200 yards of the spot where his ancestor, also a Lord Derby, was beheaded in the market place in 1651.

Marriages in Nevada as

Well as Divorces Boom

Reno, Nev.—One reason why Nevada's marriage business is booming as a rival to divorces, insofar as money-making is concerned, is that a license issued in any of the 17 counties may be used in any part of the state. This is an aid to those desiring secrecy, as a license may be secured in some tiny hamlet which is a county seat and used in Reno.

British Queen Found

to Be Wise Shopper

London.—Queen Mary is a model housewife. She is a wise shopper and a careful spender, and, best of all, she never makes mistakes in her accounts.

The authority for these compliments is not King George, but Sir Edward Wallington who, at seventy-eight, has just retired as treasurer to the queen after 13 years of office.

"If I have paid all the queen's private bills since my appointment," Sir Edward told an interviewer, "and I have been on hundreds of shopping expeditions with her, I have always been amazed by her grasp of current prices and the discrimination she showed in buying the right article. I never found a flaw in her bills."

Stops Headache

IN FIVE MINUTES

A Wonderful Formula Ends Aches and Pains Almost Like Magic. Something Better and Safer!

Thousands of men and women are now stopping throbbing, dizzy, splitting headaches, as well as the excruciating pains of rheumatism, neuritis, toothache, etc., with a marvelous new formula. It is said to be far superior to anything heretofore used.

It contains no aspirin, acetaminophen, etc., and is absolutely safe and harmless. This remarkable formula, called A-VOL, is being prescribed by thousands of doctors, dentists and welfare nurses. It is the cause of the quick relief which relieves all types of aches and pains without depressing the heart or causing any other harmful effects. A-VOL quickly stops the severe pain, leaving the patient refreshed and feeling fine. Especially effective in women's period pains.

To quickly prove to yourself this is truly a remarkable formula, just step into your nearest drug store and get a package of A-VOL for a few cents. Take a complete tablet right there. If your pain is not gone in five minutes, the clerk will return your money.

BETHEL AND VICINITY

Miss Rebecca Carter is spending a few days with Miss Minnie Capen. About 50 members of the American Legion and Auxiliary attended the Oxford County Council Field Day at Lago Lake Sunday. Special features of the day were a corn roast along with a basket lunch and the ball game between the Legion All Stars and the All Star Legion. Mrs. Wallace Clark entertained several intimate friends at a dinner party Thursday evening, Sept. 15. The table was attractively arranged with flowers and suitable favors. Her guests were Mrs. Tena Thurston, Mrs. Edwin Smith, Mrs. Norman Sanborn, Mrs. Venie Brown, Mrs. Lucian Littlehale, Mrs. Harold King, Mrs. George Thompson and sister, Mrs. Hibner of Boston, and Miss Alice Willis. The dinner was a delightful affair and the guests enjoyed a pleasant social evening following.

Early Lagladders Flakened bones of a woman and her child have been found in a prehistoric crematorium on the Surrey Downs. Excavations at Burrows Cross, near Faversham, have revealed two trenches 20 feet long, 4 feet wide, and 4 feet deep, walled with big stones. Bodies were cremated in the trenches, and sealed down by another layer of stones, on which other cremations took place. At one end of the trench half-cremated bones were found; all the others must have been completely destroyed, for the heat was so terrific that masses of charcoal and big sandstones, burnt right through, can still be seen. Experts who have examined the trenches suggest that they may have been used by Neolithic people who roamed the Downs about 7000 B. C.

Proper Display of Flag The flag code as adopted by the national flag conference, Washington, provides as follows: When the flag is displayed in a manner other than by being flown from a staff, it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall the Union should be uppermost and to the flag's own right, i. e., to the observer's left. When displayed in a window it should be displayed the same way—that is, with the Union, or blue field, to the left of the observer in the street. When festoons, rosettes, or drapings are desired, hunting of blue, white and red should be used, but never the flag.

Prayer for Light Moxley was traveling along an unfamiliar dirt road through some woods, on a dark night, when a sudden storm arose. At each flash of lightning he would take a few steps forward and then wait. The rain continued to pour and the thunder roared. Finally, as the lightning grew less frequent, the thunder louder and the road more difficult to travel, his misery expressed itself in this prayer: "Oh, Lord, if it's just the same to you, please give me a little more light and a little less noise."—Pathfinder Magazine.

Original American Foods There has been much controversy concerning the foods originally found in the Americas. It is generally agreed that in North America were tobacco, maize, a certain type of pear and a small variety of tomato. In Central America and the islands the early explorers also found tobacco and tomatoes. In South America, particularly Brazil, wild potatoes were found in abundance, so much so that in about 1830 it was necessary to import thousands of these native plants to America in order to save the potato crop of the world. It was originally thought that bananas were first found in Central and South America and the islands, but later this theory was the subject of much debate, and it is generally believed today that while bananas were originally in that section of the world, they were also found in tropical sections of the eastern hemisphere at the same time.

World-Famous Cheese For the past 500 years Roquefort, France, has been the home of the cheese that bears its name. The individual flavor of this cheese is produced by a particular bacterium working on the cheese, supplied by the natural caves in which the cheese is made. It is made from the milk of sheep which feed on herbs growing only in the rockiest places. After the cheese is made it is sprinkled with specially prepared bread crumbs. In about six weeks a green mold appears. At this time the workers pierce the cheese through and through with a machine containing fine needles. This encourages the bacteria to penetrate into the heart of the cheese.

Goethe's Joy in Life Goethe lived joyously for those things which gave him delight: fresh air, country exercises, the best in literature and art, the theater, and the performance of his manifold duties. He lived for the moment and thought for eternity. Art and literature, for him, had to be positive; the rest—either of joy or of a need to purge sorrow. Negativity, the heeding of our age, he condemned. "Negativity is nothing," was one of his sayings, which have come down to us, but it is an axiom we seem to have forgotten, particularly in literature.—London Saturday Review.

Balsa Wood Most balsa wood, now used extensively in model airplane making, comes from the forests of Ecuador, points out "Popular Aviation." Balsa is a Spanish word meaning raft, and in some parts of South America the balsa raft is the only means for transporting freight. Ten foot balsa poles are fastened together with long pegs made of palm-wood, which give the raft flexibility. Besides being used in model airplanes, balsa is used for insulating refrigerators and for packing planes and fine furniture.

Survival of Paganism

in English Rural Life Rural England remains pagan at heart, L. E. Ramsey asserts, in the London Saturday Review. Even the worship of the old heathen gods continues in the reverence shown to certain trees. You may notice, for instance, elders growing in most inconvenient places, in front of a window or out of a wall, yet in Sussex I have been gravely told that to cut down elder would bring suffering and disaster. Now, elder was sacred to Pan; Pan-pipes were made of its wood.

Tamarisk grows along our southern coast, but you never see a villager gathering tamarisk. No villager would allow it to be brought into the house. You never see tamarisk hedges properly pruned unless they grow in the gardens of people from another county. Tamarisk was worshipped in Egypt. It was the tree that overshadowed the sepulcher and the chest containing the body was said to have been found by Isis lodged in its branches when it was driven ashore by the waves. As a holy tree the tamarisk is regarded by Sussex natives who have never heard of Isis.

It seems as if every man should be taught to make a speech alone with his other schooling. So many speak so badly.

An 1877 Typewriter We have dug up some old papers showing that the typewriter was used in business as early as 1877. A letter dated January 2 of that year, from the National Life Insurance company of Chicago and signed by J. M. Butler, secretary, is typed—and nearly so. However, these first typewriters used only caps. This concern was ahead of its time as it was two years later, in 1879, when a typewriter used by the Pathfinder editor in the lobby of the Capitol at Washington (when it was secretary to his senator-father) was such a novelty that tourists, as well as officials all paused to see "a contraption" work.—Pathfinder Magazine.

The Pendulum Clock A pendulum clock gained, owing to the increase of gravity with latitude, about one minute and twenty seconds a day when taken from Ottawa to the mouth of Mackenzie river, Northwest territories, by an official of the Dominion observatory, department of the interior, in connection with gravity work. Taken to a height of about 5,000 feet up a mountain side in British Columbia, it lost about 13 seconds daily.

Requisites Grandma (to granddaughter engaged to be married)—You are young, dear. Do you feel you are fitted for married life? Granddaughter—Perfectly, grandma. I have seventeen gowns and three costumes.—London Tit-Bits.

Skywards Ticket Agent—Yes, sir, we can sell you a ticket to anywhere. Wise Guy—How about a ticket to heaven? Ticket Agent—Yes, sir—right down at the redemption window.

NORTH WOODSTOCK

Mr. and Mrs. James Brown and family of Auburn visited with Mr. and Mrs. Alphonso Brown and family on Thursday evening of last week. Mr. and Mrs. Francis Cole, Everett, and Mr. and Mrs. Herman Cole and son Richard called on friends at West Paris and Greenwood Sunday.

Ned Millett of Connecticut, Mrs. Rose Best of Massachusetts and Mrs. Robert Millett of Sumner spent last Thursday with Mrs. George Abbott and called on Mr. and Mrs. Cullen Abbott.

Mr. and Mrs. Arthur Coffin are receiving congratulations on the birth of a daughter. Mrs. Charles Tucker of Buckfield is caring for mother and baby.

Mrs. James Knights spent one day last week with her sister, Mrs. Frank Swetsir.

Mr. and Mrs. George Abbott and family visited relatives at West Paris Sunday afternoon.

Mr. and Mrs. John Hemingway called on relatives at Norway Sunday.

Several from this community attended Oxford County Fair last week.

Mrs. Herbert Noyes was at Abbott's Mill and Rumford last week.

Walter Russ is at the Marine Hospital at Portland. His wife and daughter Irvin went down Sunday to see him.

Edwin Ricker and Mrs. Moses Hardy visited relatives at Gilead Sunday.

Mr. and Mrs. Bert Emerson of Lewiston recently called on Mr. and Mrs. John Hemingway.

Ellen Abbott is gaining slowly after having an ill turn about two weeks ago.

Mrs. Malcolm Downing of Mechanic Falls is staying with her mother, Mrs. Walter Russ. She is helping them harvest their garden vegetables.

Kenneth Arata, a teacher of Woodstock High School, was a supper guest of Everett Cole on Tuesday of last week.

We guarantee to satisfy you when we accept your order for printing.

THE CITIZEN-PRINTERS

SONGO FOND

Miss Mabel Inman has been conveying Arlene Donahue to school for the past week as Mr. Donahue has been working on the road.

Floyd Kimball has finished his work at Fryeburg and is working on the road in this vicinity.

Mrs. Lena Kimball has been cleaning Fred Murphy's camp, where they intend to move soon.

Mr. and Mrs. A. B. Kimball will give a reception at Hunt's Corner Thursday night, Sept. 22, and the public is cordially invited.

George Brown of West Bethel took Floyd Kimball's place on the road one day this week while Mr. Kimball was out of town.

Mrs. George Brown visited Mrs. Floyd Kimball one day this week.

MODERN IRAQ

Fire Wood Is Scarce in Iraq.

Prepared by National Geographic Society, Washington, D. C.—WNO Service.

IRAQ, where American explorers recently discovered a complete historic township, dating from the early fourth millennium, is the modern name for the traditional Garden of Eden, historically known as Mesopotamia. Many historians hold that somewhere in Iraq—in the valley of the Tigris and Euphrates rivers—is to be found the cradle of civilization. Upon the breaking up of the Turkish empire following the World war Mesopotamia became a British mandate which was erected into the Arab kingdom of Iraq with a Mohammedan prince from Mecca upon the throne. Such is the latest form assumed by the Phoenix among nations. In the last six thousand years Babylonian, Assyrian, Chaldean, Persian, Greek, Roman and Saracen civilizations have flourished in Mesopotamia, each rising from the ruins of its predecessor.

The great irrigation works which, throughout the centuries, have kept the Tigris-Euphrates valley green, rich and flourishing were destroyed by invading Mongols and allowed to decay by heedless Turks. The Garden of Eden became a treeless desert, except for a few date palms along the river banks. Cities like Baghdad and Basra fell to decay and seemed fast approaching the fate which had overtaken Ur and Babylon, where hundreds have above a lonely waste.

Then followed a revival during the throes of the great war. Once more boats crowded the swift and treacherous reaches of the Tigris. Once more the banners of Baghdad and Basra and Mosul hummed with world traffic. Marauding desert robber tribes were kept in perpetual terror by airplanes humming over their remote villages. Sanitary regulations and electric lighting made town and country both more safe and more beautiful. Ice factories and soda water establishments helped alleviate summer days of 120 degrees in the shade. Levees were built to keep the flooding rivers within their banks and slowly but by bit work was begun on reestablishing irrigation works and building railroads. Thus was modern Iraq born.

The new kingdom under British mandate embraces the valley of the Tigris-Euphrates between the Arabian desert on one side and the Persian uplands on the other. To the northwest lies the French mandate of Syria and to the north the Kurdish highlands of Turkey. Southwest stretches the Persian gulf, the country's salt water outlet to the wide world. Within this strip of territory are barely 3,000,000 people where once flourished a population denser than that of modern Belgium.

What Baghdad Is Like. There are three principal cities: Mosul, of old fame, is in the north; Baghdad, the important port of Basra in the south. Of the three Baghdad perhaps is most famous.

From the deck of a Tigris steamer Baghdad looms up boldly, its splendid skyline of domes and minarets reminding one of some "Midway" of World's fair memory. An old pontoon bridge connects the two parts of the city, separated by the yellow Tigris. On the west bank is the old town, enclosed by date and orange groves. From here the Baghdad-Mosul railway starts on its long run across the trackless desert. East of the river, on the Persian side, is "new" Baghdad, with its government offices, barracks, consulates, etc.

Beyond, as far as the eye can reach in every direction, stretches the vast, flat, treeless empty plain of Mesopotamia—a region once more populous than Belgium.

The traveler is paddled ashore from the steamer in a "ketch," a queer, flat-bottomed craft in use here since the 18th century. A ketch is woven from willows about six feet in diameter, is pointed at both ends and is covered outside with bitumen. Some say Moses was cut adrift in one of these ketches.

Old City Meets in Ruins. Another strange craft at Baghdad is the "ketch," a Kurdish invention. The ketch is a raft made of inflated goat-skins, held together by poles and covered with a platform of straw mats.

These ketches come down to Baghdad in hundreds from Mosul, bringing wool, pottery, grain and skins.

The present custom house at Baghdad is a wing of the old palace of Harun-al-Rashid; yards of sprawling Arabic characters, cut in marble panels, still adorn its historic walls. Baghdad arteries of traffic are mere alleys, often so narrow that two donkeys cannot pass. Once Turkish soldiers tried to move artillery through Baghdad. The streets were so narrow the horses had to be unhitched, and men moved the guns about by hand.

A great wall encircles Baghdad, with guarded gateways, as in medieval days. Flat-roofed, huddled Moorish houses, many almost windowless and each surrounded by its own open court, are a distinct feature of the older parts of Baghdad. On these flat roofs Arabs spend the summer nights with four-toms, flutes, water-pipes, and dancing women. Facing the river, removed from the Arab town, are built the imposing foreign consulates, mercantile offices, and the sumptuous homes of rich Jews, Armenians, Greeks and Syrians—the men who make New Baghdad.

But the Baghdad of All Baba's day, with the splendor of Aladdin's enchanted age, is gone forever. The minarets, the mosques, and minarets are mostly in ruins. Even the tomb of lovely Lady Zoheda, favorite wife of Harun-al-Rashid, is tumbled down and destroyed. It is into modern monuments to New Baghdad—into roads, bridges, public buildings, irrigation works, army organization, and the like—that the Young Turks put their money.

Modern Baghdad is in every hand; no dissipated royalty guards its gates. Sober, clear-headed men, drilled in the best schools of modern Europe, hold their own anywhere, administer its affairs. As late as 1820 the Tigris overflowed its banks, swept through Baghdad, and drowned 15,000 people in one night.

Till lately Baghdad, more than any other city in the Near East, has been slow to yield to Europe's influence. For centuries Baghdad kept close to the Bedouin life, under the sway of nomadic customs. Even now Baghdad's famous bazars, despite her evolution in other ways, are conducted as they were a thousand years ago. These Arab trading places have changed not one whit since Abraham's time. Here is bazaar and sale as Marco Polo found it, as it was in the days of the Three Wise Men who bought gifts for Bethlehem.

Basra is situated on the Shatt-el-Arab, a river formed by the union of the Tigris and Euphrates. Small centers of importance, such as Kut and Amara, follow each other at intervals the entire length of the valley. Most of the inhabitants are Mohammedan Arabs, though in the cities are many Jews, while in the mountainous north are settlements of Nestorian Christians dating from very early times.

Arabs Who Work in Factories. City Arabs have taken readily to the ways of civilization and seen glad for the chance to work in ice and cotton cloth factories, and upon engineering and public works. Much agricultural land has been reclaimed, the date palm, of which more than sixty varieties are known, being the chief product. Wheat, barley and rice are also grown, and experiments with cotton are being made. Flowers, pumpkins and vegetables are planted in the date orchards where the palms protect tender leaves below from the scorching summer sun. These green spots are still chiefly confined to the regions of the river banks. The rest of the lower valley is swamp or treeless plain.

In the spring months when snows are melting on nearby mountains ranges the Tigris and Euphrates become swollen torrents and often overflow their banks and inundate the surrounding country. Just as they did in the days of Noah. The new regime is taking active steps to flood prevention by strengthening river banks in low places and damming up the flow at headwaters. There has been no serious flood since 1910 when the Tigris rose to within a foot of the level of Baghdad and the lower valley became one vast lake where a man and beast vainly sought for safety.

ABBEY IN INDIANA
FOUNDED IN 1853

The death a short time ago of Anthonius Schmitt, abbot of St. Meinrad, recalls the foundation of Indiana's Benedictine abbey. Besought by bishop de St. Palais, Abbot Henry IV of Einsiedeln, Switzerland, sent two monks, Ulrich Christen, a Swiss, and Bede O'Connor, a Londoner of Irish descent, to the diocese of Vincennes, which then embraced the whole of Indiana and a third of Illinois. On August 12, 1853, these two monks bought Mr. Denning's farm of 160 acres for \$2,750. This property lay in a romantic region of entrancing forests some five miles south of Ferdinand in the hilly country that skirts the Anderson river in Perry and Spencer counties. It was in the hills—the same historic hills that, since the beginning of time, have called man and monk to prayer and meditation. "I will lift up mine eyes to the hills whence cometh my help," sang the Psalmist. St. Francis of Assisi, with the "desiderium collum aeternum" when he left the haunts of men to go to the quiet of the hill-tops hermitage of La Verna. St. Meinrad and the monk Ekkehard, of St. Gall, sought their peace in the snows of the Alps. The same call led Petrarch to his midnight prayers in the moonlit heights of Avignon. —Correspondence Indianapolis News.

GATHERED UP

The darkest hour is never more than 60 minutes. What brave man runs to meet a chance of sorrow? If every one were satisfied no one would buy the new thing.

Learn to shrink yourself to the size of the company you are in.

If you want to be miserable, just keep thinking about yourself.

The applause of a single human being is of great consequence. What the world needs is a peace pact that will disarm criticism.

A wise man, like the moon, shows only his bright side to the world. There are those who think you are unfair if you take them at their word.

Ice cream pants were once thought daring; now, whole suits are that kind.

If there are no influences outside oneself, one can live within his income.

Uncle Ab says that the man who is satisfied is not much help to the world.

Good grammar "comes natural" to some people who only have to hear it once.

Talk about health and pretty soon it drifts into talk about nothing but sickness.

Eternal vigilance is the price of liberty, of course; but one gets tired of vigilance.

Own ten acres and you can plan your woods so that nobody can spoil your scenery.

A man continually forgets, so that if he does not continually learn, he will know less and less.

Sleepy Motorists

There is much all night driving on the Connecticut highways, particularly by persons traveling between Boston and New York. Because the highways have been a number of serious accidents attributable to the operation of "sleeping" drivers. The state police have ordered a plan to "wake" up the drivers. The plan is to ask the driver if he is sleepy. If he answers "yes," the police officer will tell him to pull over to the side of the road and go to sleep. The driver will be called at the time he specifies.

Through Arctic Snows

The erection of a 60 foot stone shaft on Cape York, in Greenland, as a memorial to Admiral Peary, the discoverer of the North pole, recalls one of the greatest chapters in Arctic history.

Although it was not until 1909 that he actually reached the pole, he had been engaged in Arctic exploration for some years previously, and his daughter, Mrs. Marie Peary Stenstrom, has the distinction of being the only white woman who was born within the Arctic circle.

Salmon Killed by an Eel

Last night more than an hour a battle to the death between a salmon and an eel was seen in the Sney at Aberdeen, Scotland, recently. The combatants lashed the water to a foam at times. The eel wrapped itself around the salmon and attacked its head. One shot of the salmon's jaws would have dispatched its adversary, which defied all efforts to dislodge it. Finally the eel bit off both of the salmon's jaws and the salmon sank exhausted.

Old Style Hair Cut

"Hairsdressing to suit the hat" is the latest thing in Paris. Ladies now keep their hats on when they visit the hairdresser.

Sounds like a reversion to the old basin method of trimming Johnny's locks.—Boston Transcript.

Great Idea

Mrs. Snapper: You can cut some people by ignoring them. Mr. Snapper: I wish I could cut the town that way!

Way of All Husbands

Jolles: I've come to the conclusion that women are puzzles. Smith: So have I. I've had to give several of them up.

A FEW MOMENTS
WITH THE POETS

AN OVERWORKED ELOCUTIONIST

Once there was a little boy, whose name was Robert Reese; And every Friday afternoon he had to speak a piece. So many poems thus he learned, that soon he had a store Of recitations in his head, and still kept learning more.

And now this is what happened: He was called upon one week, And totally forgot the piece he was about to speak! His brain he cudgeled. Not a word remained within his head! And so he spoke at random, and this is what he said:

"My Beautiful, my Beautiful, who standest proudly by, It was the schooner, Hesperus—the breaking waves dashed high! Why is the Forum crowded? What means this stir in Rome? Under a spreading chestnut tree there is no place like home!"

"When Freedom from her mountain height cried, Twinkle, little star, Shout if you must this old gray head, King Henry of Navarre! And on, thou deep and dark blue castled crag of Drachentels, My name is Norval, on the Grampian hills, ring out, wild bells!"

"If you're waking call me early, to be or not to be, The curfew must not ring tonight! Oh, woodman, spare that tree! Charge, Chester, charge! On, Stanley, on! And let who will be clever! T. boy stood on the burning deck, till I go on forever!"

His elocution was superb, his voice and gestures fine; His schoolmates all applauded as he finished the last line.

"I see it doesn't matter," Robert thought, "what words I say, So long as I declaim with oratorical display!"

—Carolyn Wells, in St. Nicholas.

HIS FIRST LONG TROUSERS

Say, young fellow, just a minute! They're your first long trousers, eh? And your little gray knee breeches Are forever put away, And your blouses and your stockings And your little caps are gone, For the slacks and cuffs of manhood, And you've got a derby on!

Yes—you look well in them, sonny. Why, I can't believe my eyes! For it doesn't seem a year ago Since you were just this size, And a little, pink-checked youngster. Why, you toddled, more than ran, Every night to meet your daddy, And to-day you are a man!

Oh, I don't know how to tell you, But I want to, yes, I do, That your mother and your daddy Both are mighty proud of you. And we're going to miss the baby That from us to-day has gone, But that baby we'll remember, Though he has long trousers on.

We are banking on you, sonny. And we'll help you all we can; But it's up to you, remember, Now to prove you are a man. You can make us mighty happy, You can make us mighty sad; Just remember it's not mainly To do the things you know are bad.

I'm not going to preach a sermon. Mother's put your blouse away And your breeches; and I saw her Crying over them to-day. And I thought perhaps I'd give you Just a thought, to dwell upon— Please remember you're her baby, Though you've got long trousers on. —Detroit Free Press.

HIS DAY OF REST

He never had time to rest and he never had time to play; When a man should be at his best he was old and wrinkled and gray. He never had time to care how others were getting along, He never had time to share the joy of the singer's song.

He labored early and late, rudely pushing ahead; Pleasure, he thought, could wait; he would seek it some day, he said. Deaf to the cries of those who struggled in vain below, He heaped new woes on their woes, permitting his greed to grow.

He never had time to pause for the purpose of giving praise; He craved no public applause, he hunted for peaceful ways; He never had time to waste on the songs that the lover sings, He never had time to taste the sweetness that kindness brings.

He hurried early and late, roughly pushing ahead; Pleasure, he thought, could wait; he would seek it some day, he said. Old and wrinkled and gray when a man should be at his best, He died on the dismal day when he meant to begin his rest. —Chicago Record-Herald.

HOW MUCH DO YOU
KNOW?

Daniel Wight has completed his duties as watchman on Old Speck Mountain, and returned to Gorham, Normal Tuesday, Sept. 12.

Dear River Grange will meet in regular session Saturday evening, Sept. 24. It is expected there will be brother and sister Grangers from Rhode Island present.

Mr. and Mrs. F. L. French called at L. E. Wight's Sunday night.

B. B. Morton has been drawn to serve on traverse jury in November.

Born.

In Bryant Nov. 17, to the wife of O. H. Mille, a son.

In North Woodstock, Sept. 15, to the wife of Arthur Cullen, a daughter.

In Norway, Sept. 9, to the wife of Gary M. Leach, a son, Gary Winfred.

In Norway, Sept. 10, to the wife of Eugene H. Fitter, a daughter, Joan Augusta.

In Lewiston, Aug. 11, to the wife of Dr. Wilfred N. Sweet of Norway, a daughter, Barbara Nichols.

In Norway, Sept. 5, to the wife of Arthur M. Taylor of Oxford, a son, Edwin Eugene.

Married

In Bethel, Sept. 10, by Rev. L. A. Edwards, Anne B. Kimball and Mrs. Daisy Whitcomb, both of Albany.

In South Paris, Sept. 17, by Rev. Ernest H. Kelly, Kenneth G. Blaisdell of South Paris and Miss Bernice M. Shannon of Norway.

In East Greenland, Sept. 10, by Rev. W. L. Hall, Walter J. Irvine of South Paris and Miss Kathleen G. Lee of Norway Lake.

In Norway, Sept. 5, by Rev. Margaret McArthur, George H. Parks of Norway and Miss Pauline E. Paine of Albany.

Died

In Bethel, Sept. 15, Charles L. Swan, aged 78 years.

In Auburn, Sept. 14, Mrs. Gladys (Hick), wife of Richard B. Parker of East Green, aged 41 years.

In Buckfield, Sept. 15, Mrs. Margaret M. Sweet, aged 85 years.

In Waterville, Sept. 13, Mrs. C. M. Billings, aged 80 years.

Beasts Once Summoned Before Judicial Courts

Among curious legal cases before the courts, few bear comparison with those recorded in bygone days, when suits were really heard against the lower creation, says the Law Journal of London. While it is difficult to suppress merriment over the quaint ideas of our ancestors, regarding the culpability of animals, there is no doubt that the trials were viewed seriously. The warrant for holding animals amenable to the law appears to have been taken from the Jewish law: "If an ox gore a man or woman that they die, then the ox shall be surely stoned and his flesh shall not be eaten; but the owner of the ox shall be quit."

Following this command Moses proceeds to enforce the doctrine of the responsibility of the owner of a dangerous animal and to insure his due punishment in the event of his unwillingly allowing a harmful beast to run loose. These injunctions, therefore, which sound so strange today, were pursued more or less to the letter in medieval Europe, and, extraordinary though it may seem, in France and other European countries animals in general were held to be amenable to law until the middle of the eighteenth century.

By the old law of France, if a vicious animal killed a human being and it was proved that the owner knew of its propensity to attack people and suffered the beast to be at large, the owner as well as the animal was hanged.

Blood Combination That Has Bred Moron People

The name "Jackson Whites" probably was formed from the words Jack and whites, a Jack being a hybrid. The Jackson Whites of New Jersey are a mixture of negro, Indian and white blood, showing all possible combinations of the traits of these three races. The historical records of the subject show that a number of the freed slaves settled in the Ramapo mountains, where they were joined by occasional whites of very low standing from the surrounding communities. Just how the Indian blood is to be accounted for is uncertain. One theory is that some of these freed slaves were Indians, as it is a well-authenticated fact that at one time some Indians were held as slaves. Another theory is that these were Indians who joined this group of people just as the low-grade white people joined them. As far as mentality goes the average mental age is from nine to ten years. In other words, these people are practically all of the moron level of intelligence.—Washington Star.

The word "aleidoscope" is orthographically fascinating, almost alphabetically picturesque. It is no wonder, then, that "aleidoscope" is a favorite adjective with critics, journalists, and other writers. Sometimes it is well used, but often its precise meaning is forgotten or neglected. The definition given in Webster's new international dictionary reads: one of the popular children's toys: "An instrument invented by Sir David Brewster, which contains loose fragments of colored glass, etc., and reflecting surfaces so arranged that changes of position exhibit its contents in an endless variety of symmetrical variegated forms. Its figures have been much employed in arts of design."

Slow to Recognize America

On February 17, 1775, signatures were affixed to a treaty of commerce and a treaty of amity and alliance between France and the United States. The definitive treaty between the United States and England was signed at the end of 1783. Although French ceded the Great West of France to the United States, it was not until 1793 that France recognized the United States as a nation. In 1775, a treaty of peace and friendship was signed with the Netherlands in September, 1775. A treaty of peace and friendship was signed with Morocco in January, 1787. A treaty had been signed with Sweden in April, 1783. Russia did not recognize the new country or send a diplomatic representative until 1800.

Fly Plague in Eastern Lands

A host of death must await us of eastern flies to the people of those otherwise heaven-blessed lands, where sanitation is still almost unknown, and proper drainage is yet frequently absent. It speaks eloquently for the civilized care of old homes for the centuries it conquered, that in the New Testament the annoyance and danger of swarms of flies are so little in evidence, although the material so fatal to those who spent their summers in homes there, according to many visitors, was no doubt present and could easily be not mainly by mosquitoes and other fly pests.

Stag Hunting as "Sport"

Stag hunting has been a popular sport among the upper classes in England for almost a thousand years. Sir Walter Scott began his famous narrative poem, "The Lady of the Lake," with the opening line (hinting of a stag hunt to follow): "The stag at eve had drunk his fill." The matter of its capture is so open to debate, but it is a fact that stag hunting has been a popular place in English history for centuries.

THE FINGER POINTS In and Around Bethel

Gordon E. Lathrop

It is Everybody's Business! It is everybody's business, when you come right down to it. If the common is good-looking or if someone despoils it. It is everybody's business if a corner is dangerous.

Because a wood-pile hides the view that drivers there should see. It is everybody's business if the road-sides green and fair. Become unsightly places because someone's dumping there. It is everybody's business if the garbage you inhale. As you cross the Androscoggin, after someone's tipped the pail.

It is everybody's business in what sort of town you live; To its needs and problems some attention you should give. So that strangers won't have any cause to shout, And criticize, and point to things, that citizens should shout out.

Everyway Parking on Lower Main St.

How those cars do pile up in front of the chain stores! Everybody is so eager to have their money shipped out of town to some big corporation that it doesn't matter how or where they park their car. One fellow goes straight into the curb, the next one comes sideling up to it sideways and has the fenders of a third car butted up against the doors so he can't move. And it doesn't matter how near the curb the car gets. Gee, whiz, not just as long as you get as close to the door as you can it's all right to park in the middle of the street. Let the ones who want to get through honk their horns and run down their batteries. What do you care? The idea is not to have to lug your groceries too far. What an orderly mess it isn't! If you want to see what a big city traffic jam looks like just visit the lower end of Main Street on a pleasant Saturday afternoon. But in a city traffic jam the pedestrians know enough to stay out of the tangle. Not so with this week end scramble. You have to keep your eyes fixed in 'steen directions if you want to back and fill out of there without knocking over somebody scuttling for a car parked across the street, or out in the street. And the amazing part of it is that traffic untangles itself all day long without any direction at all. That's something that city slickers can't do, by gum!

A Cure for Prohibition Isn't Needed

It is to make your own beer! Those persons who are doing all the yelling about whether this country should be wet or should be dry don't know that conditions are adjusting themselves very satisfactorily. Those who want beer are making it and from some of the samples it is a good conception. It costs something less than a dollar and a half to make a couple of gallons. By having it in their homes they are saving the trip to pay a nickel a mug and "set them up" for a bunch of hangers on besides. They carry their pay envelope to the Mrs. Instead, these days, and she makes enough for the family and to treat an occasional visitor. And knowing it is there, and that they can have it, takes away that wanting-something-forbidden urge that leads the younger generation to the speakeasy because it thinks that is a smart place to be seen going into. Those that believe in absolute prohibition get along very nicely, not knowing that their damp neighbor is quenching his thirst from his own brew. They can pat themselves on the back, if they want to, for the change in scenery that has been made by the passing of the saloon. And so both extremes are happy and the big majority who vacillate from one to the other are happy with them.

Giving the Fire Wardens Gray Hairs

Before this last rainy many farmers and landowners took advantage of the dry condition of grass, stubble and underbrush to burn over their land. No one denies that this is the most economical and easiest way to clear land. But there is a law on the statute books of the State that asks all persons to obtain a permit before starting such a fire. Of course it is a bother in a lot of cases to get a permit. It means the loss of a few minutes to phone a fire warden. But do you realize what you start with a fire like that? This whole region is under surveillance from the stations on Mt. Spec, Carter Dome, and Ogunquit. When the smoke begins to roll into the ether, then these wardens want to know where it is, and if it is watched or set heedlessly. They phone one another and to points near where they judge the fire to be. They send farmers on chases that often prove futile. But their job depends on knowing whether a fire is dangerous or not. Think of the men disturbed, and the time they spend phoning around because you didn't have time or thought to get a permit.

DRAIN WATER FLOODS CELLAR

NILES KELLOGG CLAIMS HE CAN GET NO ACTION FROM TOWN ON FIXING PIPE LINE

To "The Finger Points":

In August 1931 I went to Mr. Frank Brown about the drain of surface water and sewage that overflowed on my garden and killed one of my pear trees, and damaged the garden. He informed me the town was ready for bankruptcy and he would attend to same next Spring.

The first of April, 1932, over four feet of sewage water came in my cellar and ruined everything. I left a note under his door to come down and see same. He did not come. On April 8th I took a bill up for \$36.75 and when I went in the office Mr. Brown took his hat and walked out so I gave the bill to the other Selectmen and told them the story. They said they would see about it.

August 13, 1932, I went in and saw Mr. Brown and he told me that next week he would see Mr. Bert Brown and run the pipe to the brook, as the pipe now only runs to the old raceway which has been filled by the State and town.

As Mr. Brown did nothing I went to Dr. Twaddle the last of August, 1932, and told him the story and he said he would see Mr. Brown. On the night of September 16, twenty-one inches of slush came into the cellar again and so I went and got the Board of Health down to see same. The Road Commissioner was here and he told Dr. Twaddle the water came from under my barn which has not had a drop under there for three years and was as dry as an ash barrel the morning he said the same.

The only reason I see for not fixing this drain is because I live at the foot of Mill Hill. Now, if anybody wishes to comment on this letter, put themselves against the same proposition. And then argue likewise.

(Signed) NILES KELLOGG, Bethel, Me.

Can anyone blame Mr. Kellogg for being provoked to say the least? The drain is laid across his land from the opposite side of the street. It was running water the day he showed it to me. The other end of the pipe was high and dry plugged up with refuse. The only way the water could get out was to seep through. Obviously that seepage would not take care of the water from a sharp shower. Sometime or other the water standing in the pipe had frozen apparently making a break in such a position that now, the water being unable to leave the pipe by the end, the water leaves by way of Mr. Kellogg's cellar. Now he threatens to send the case to the legal department of a New England paper to be broadcast over their territory. Which doesn't sound so good for Bethel.

Gordon E. Lathrop.

SOUTH BETHEL

Mr. and Mrs. Gerald Walker and little son Roland from South Paris visited his mother, Mrs. Agnes Walker, over the week end.

Mrs. Alice Robertson from Bryant Pond visited Mrs. Linwood Newell Monday afternoon.

Mr. and Mrs. Lester Swan and baby Kenneth from Milton were at Frank Brooks' Monday.

Harry Isaacson from Auburn was in town the first of the week.

School began Monday, Sept. 12, with Miss Bean as teacher.

Elmer Smith is working for Year Dean on Chandler Hill for a few days.

Bernice Tibbitts from Locke Mills visited her sisters, Mrs. Gerald Walker and Olive Tibbitts, Sunday.

Mrs. Linwood Newell and children, Margaret and Junior, were at her sister's, Mrs. Merle Lurvey's, at Locke Mills Monday.

Friends of Everett Chase, son of Mr. and Mrs. Shirley Chase, will be pleased to hear that he has returned to his home here after being at the C. M. G. Hospital, Lewiston, for over three months, for a very serious case of appendicitis. Although he is unable to attend school yet, he is able to be out doors and to get about the house.

Mrs. Frank Brooks and family entertained her sister, Mrs. Kenneth Daley, husband and little son Kenneth Jr., and Mr. Daley's sister, Miss Muriel Daley from Portland Sunday.

Mr. and Mrs. Herbert Day from Locke Mills were at Frank Brooks' Saturday.

NOTICE

The subscriber hereby gives notice that he has been duly appointed executor of the estate of Grace W. Estes, late of Bethel in the County of Oxford, deceased, without bond. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted there-to are requested to make payment immediately.

LEO E. BUDIER, Aug. 24th, 1932. Bethel, Maine. 24p

Forgotten Heroes

By Elmo Scott Watson

The Earliest Revolutionist

A little honor to the heroes of '76, who brought about the Revolution, fought in it and won American freedom, but don't forget the earlier revolutionists who paved the way for them. One of them died in the gallows and his death there, in the words of a recent historian, "was the primordial germ of the American revolt. It antedated Lexington by 85 years, but was in a way, remote but certain, its forbear."

Jacob Leisler was his name. He was a Dutchman who lived in New York in the last part of the Seventeenth century. When James II was deposed as king of England, New York which had been ruled by an absentee ruler, the Duke of York, brother of the king, was without a governor. So the burghers met and appointed a committee of safety (since war with France was in the offing) and chose Leisler to be captain of the fort. Later it authorized him to act as governor until a new one should arrive and although he filled the office well and was recognized as governor by the other colonies, the aristocrats of New York (the English officers and their circle) were bitterly hostile to him.

In 1689 the new English monarch, King William, sent a notoriously drunken and incompetent person, named Slaughter, to be governor and a Lieutenant governor named Ingoldsby, who arrived in New York first. The aristocrats immediately lined Ingoldsby up with them and he demanded that Leisler hand over to him possession of the fort. Leisler, doubting his authority, refused.

The result was that he was arrested for high treason, as was Jacob Millborne, his son-in-law and secretary. They were tried before a court which was prejudiced against them and sentenced to be hanged. Slaughter hesitated to sign the death warrant but the leaders of the aristocratic party got him drunk and while he was in that condition he signed the papers without knowing what they were. So Leisler and Millborne went to the scaffold, around which gathered the common people, weeping and crying aloud when they saw their champions going to their deaths. From that day grew a deep resentment against the tyranny of British rulers which was to burn brighter during the long dispute of the next century and which was destined to make ardent patriots of the Dutch burghers of New York city when the fire of Revolution flamed out in 1775. So Jacob Leisler did not die in vain.

(Ad. 1921, Western Newspaper Union.)

"Pilgrim Fathers"

The term "Pilgrim" is used in reference to the earliest immigrants to Massachusetts, but more especially to the settlers at Plymouth in 1620. The term must be distinguished from Puritan, which was that given to a body of religious reformers who sought to reform the Church of England. The Pilgrims were separatists from the first, who had already left England and formed an independent congregation in Leyden, whence they came to New England.

English "Public Schools"

The term "public school" does not mean the same in England that it does in the United States. Eton, Harrow, Winchester and the like are the famous public schools, but tuition is charged. The schools in England which compare with our own public schools are called "free schools." Only the poorer classes attend for the most part. They are not considered as having as high standards as the thousands of private schools in this land.

Wall Decorations

More painting reached its highest development among the Italians, collecting the genius of Michelangelo, Giotto, Raphael, and Titian. The word "mural" derived from the Latin "murus," meaning "wall," refers to wall painting, especially that involving systematic decorative design. It had its glories in the prehistoric cave paintings, and in spite of several declines, has never been a "dead" art.

CHURCH ACTIVITIES

FIRST CONGREGATIONAL CHURCH

L. A. Edwards, Pastor

10:45 Morning Worship. The subject will be "Choked Channels. Where Does Religion Come In?"

Are the channels through which Religion formerly came into the life of men being kept open?

In your opinion, is religion essential, or sufficiently important to demand any sacrifice on your part to keep the channels may be kept open?

What proportion of the population of Bethel gives evidence that Religion is of any vital importance?

Russia has written God out of National Program. Have we?

BETHEL M. E. CHURCH

Rev. R. C. Dalzell, Minister

Sunday School, 9:45. Superintendent, Evans Wilson.

"Rally Day" observed. All Sunday School children of our parish were to be present. Let us begin our work with enthusiasm. Efficient teachers for all grades.

"Morning Service." (Time changed from 10:45 to 11:00). Please keep this in mind, that from now on the time of our worship is from 11:00 to 12:00.

Tuesday evening Prayer Service, 7:30.

There will be an Epworth League corn roast at John Anderson's Friday night. Cars will leave the church seven o'clock.

CHRISTIAN SCIENCE SOCIETY

Chapman Street

Sunday School at 10 o'clock.

Services Sunday morning at 10:45. Subject of the lesson sermon, Reality.

Wednesday testimonial meeting, 7:30 p. m.

Middle Intervale, Bethel

Miss Frances Carter has returned to school in Portland after spending the summer vacation with her sister Grace Carter.

Rebecca Carter returned home Thursday after spending the summer at Pine Point.

School in this vicinity opened Monday with Miss Eva Ladd as teacher.

Ernest Morrisette was in Bethel Saturday.

John Carter and family went to Boston Sunday and will go to Worcester before returning home.

Mr. and Mrs. Fred Tibbitts spent Sunday with Grace Carter.

Mrs. Bessie Soule spent the week end with her father, Ossian Stanley.

Mrs. Willis Ward returned from Pine Point Sunday.

Edgar Rainey is spending the week in Boston.

Roger Bartlett has finished his work at Dexter and is at home with his parents, Mr. and Mrs. L. U. Bartlett.
